Experience

Software Engineer — Everest Engineering, Bengaluru Jan 2025 – Nov 2026

Liively - Food Delivery Platform, Australia & Dubai *NestJS, GraphQL, MongoDB, React.js, Material UI, AWS, Stripe, Jest*

- Designed and developed end-to-end Menu Discount workflows, implementing flexible discount configuration and seamless integration with the ordering system across frontend and backend services.
- Contributed to AWS-based production deployments and environment management, supporting release execution, deployment stability, and seamless application delivery.
- Enhanced refund processing workflows by implementing backend refund-handling logic, ensuring accurate transaction processing and operational reliability.
- Implemented database schema migrations, optimized API performance, and developed scalable backend solutions leveraging AWS infrastructure.
- Integrated AWS password policy enforcement into the frontend, dynamically displaying password complexity requirements during password reset.
- Developed bulk item management capabilities, enabling efficient creation and simultaneous updates of multiple items.
- Enhanced order delivery workflows, including delivery partner assignment and order processing, handling complex operational edge cases.

Basecamp - Web Application, Fusecon, Asia *REST APIs, PostgreSQL, Express.js, React.js, Docker*

- Implemented AWS S3-based image upload workflows with database persistence for image metadata and reliable retrieval.
- Engineered a time-based image-scoring system with background processing to asynchronously update image scores and processing statuses.
- Resolved a production OTP verification concurrency issue, improving verification reliability and backend scalability under simultaneous user requests.

Software Engineer Intern — Everest Engineering, Bengaluru Jul 2024 – Dec 2024

- Engineered a full-stack internal chat application for nearly 200 employees using Socket.IO, implementing real-time communication, end-to-end message encryption, and secure messaging workflows.
- Reduced core API latency by 30% through SQL query optimization, targeted indexing, and N+1 query elimination; established GitHub Actions CI/CD with Jest test coverage.

Technical Skills

Languages: Python, Java, TypeScript, JavaScript, SQL
Frontend: React, React Native, Material UI, Styled Components
Backend: Node.js, Express.js, GraphQL, REST APIs, WebSockets, Socket.IO, Nest.js
Databases & Search: PostgreSQL, MySQL, MongoDB
Generative AI & LLMs: RAG, Vector Search, OpenAI APIs, Amazon Bedrock
Cloud & DevOps: AWS (Lambda, EC2, S3, stripe,CloudFront), Docker, CI/CD (GitHub Actions)

Education

Rajiv Gandhi University of Knowledge Technologies, Basar June 2020 - May 2024
Bachelor of Technology in Computer Science (GPA: 8.89 / 10) *Basar, Telangana*

Certifications & Achievements

Stripe Certified Associate Developer: Stripe, April 2025
Stripe Certified Professional Developer: Stripe, April 2025
Stripe Certified Billing Developer: Stripe, April 2025
AWS Certified AI Practitioner: AWS, October 2025
ChatGPT Deployment Practitioner: OpenAI
